

HRLP

The HR Learning Partnership

We invite you to join over 1,500 participants and 75 companies who have participated in this landmark program over the past 20 years.

(See next page for details)

The HR Learning Partnership. This premier strategic HR learning experience enables HR professionals to accelerate their ability to impact the bottom line of their organizations and its customers and investors. Planted squarely at the intersection of a Playbook of content and a Project with strategic impact, world class educators provide cutting edge insights and seasoned consultants support the success of strategic projects to assure your HR professionals know how to use ideas that elevate impact.

1. PLAYBOOK

This year's programs offer a completely refreshed curriculum. HR teams from leading companies will learn from world-class educators, and each other in 7 intensive days. They are constantly challenged to apply current topics in real-time to their teams, their HR functions, and their organizations. Encouraged to think like business leaders, HR professionals stretch their ability to impact the workforce and the success of the firm. To sustain and share learning, each core topic is supplemented by podcasts participants can use to refresh their memory or to share with others inside their organization.

Key topics include: taking an outside-in perspective, building an agile organization, defining and building potential, technology-enabled business and HR, building growth mindsets, your HR competencies, collaboration, influence and persuasion, and strategic HR metrics.

2. PROJECT

Seasoned consultants coach the team on business critical projects scoped to have real business impact. Before, during, and after the program, project coaches work with the team sponsor to identify an impactful project and then challenge, supplement, and support the team as they gather data, frame solutions, and apply their learnings in a real-world, high-visibility context. After the program, coaches continue to support teams as they take their projects back to implement them.

Instead of bringing outside consultants in, send an internal team to solve your toughest HR business challenges.

3. PERSONAL

In addition to ideas and impact, participants gain greater self-knowledge through 360 assessments combined with both professional and personal coaching. They also build new relationships, expanding their external professional network to include senior-level colleagues at other organizations.

"HRLP was, without exception, the best professional development experience of my career. The program provided me theoretical grounding, immediately applicable skills, and an amazing network of friends and colleagues with whom to learn, practice, and grow."
